

# From where are you joining? You can type in your country, city, or be specific like sofa, on the move, office..?

# How many SuSanA meetings have you attended already?

# Tell us an interesting insight you had during the pandemic lockdown

We can travel less and still connect

Tigers!

Digital meeting really work!

I underestimated the social effects of the lockdown

Don't actually need to travel physically

Working from home is not as easy as it sounds

It is important to have stable wifi

On line teaching

more time to read and digest infos from partners

# Tell us an interesting insight you had during the pandemic lockdown

necessity is the mother of invention

That I do like people more than I thought

Family is gold

the value of face to face meetings

I perfected my working from home arrangements

Our country offices are doing very well without constant visits from HQ staff!

Being able to work effectively without CO2 footprint...

Not to postdate a meeting with a friend!  
Also, that more flexible jobs, at home, a completely possible.

There is such a thing as too many conference calls

# Tell us an interesting insight you had during the pandemic lockdown

happy to be part of this. Elizabeth

Should have bought Zoom stocks

Global inequalities

How can you work when all student age  
move back home!!

Coming out and making some noise at 9pm  
every night

quiet offices :-)

people can become more digital if they are  
forced to

People who lived /live abroad are good at  
dealing with change

Less travel is doable
